**Step 3: EXPLAIN**

Think about why this is of particular interest to you

Why did this research catch your attention?  
Why is it important to you? What does it tell you about your proposed subject?

It's about understanding the environment and using maths to help solve problems in a very real way.  
Its offering solutions that can be used by people living under threat from the storms.  
Its real.  
Using maths at its best to understand and explain our world.

**Step 4: Personal Statement**

Write a paragraph to illustrate your work.
